Anti-Static Airline

Developed for Aerospace applications, the Hutchins Anti-Static air hose (available in 35' and 50' lengths) is a "must have" in any environment where static electricity is a concern. Will reduce static charge on plastic parts and bumpers. Grade "D" for breathable air applications. Clear, crushproof construction. Light weight with large 3/8" inside diameter for Hi-Flow couplers. Great for waterborne paint applications. 225 PSI and 150 degree temperature rated. 35' hose is Part No. 1361-3A-35. 50' hose is Part No. 1361-3A-50.

Part No. 5501

The 5501 or PF-16 as it's known in the industry, is our most popular hand file. Flexible plastic construction allows sanding of convex or concave profiles. Waterproof for wet sanding. Also available in Velcro face & Vacuum. Uses 2 3/4" X 17" sandpaper. Similar models: 5501H, 5540, 5502 & 5507 **For a complete listing of Hutchins Hand Files; go to www.hutchinsmfg.com Key word: Speed files**
